7th ANNUAL!!!

"tiny's" STORY

Tiny was born in June 2011 with a rare Congenital Heart Defect (CHD) known as Hypoplastic Left Heart Syndrome (HLHS). When "tiny" was just 10 days old he had his first of several planned open heart surgeries. Although he spent a large percentage of his life at UC Davis Children's Hospital, he was able to come home and be with his family with intensive medical care. In December of 2011 "tiny" had his second open heart surgery. Sadly, after a strong and courageous fight, (Josh 1:9), "tiny" died. He passed away on December 27 after just six months and one week of life.

This event, and ones like it, are designed to create awareness for CHD's, raise money for the incredible care and support these babies and their families need, and to keep "tiny" alive.

His life, although short, has purpose!

Thank you for being a part of what we're doing!
